About your stay

Hygiene and safety

Please be assured we have spent a great deal of time preparing your room to the highest possible standards of cleanliness. We use the new cleaning system of an iclean which turns tap water into a safe, effective cleaner and sanitizer that works stronger than bleach and hydrogen peroxide – without the hazardous odours or toxic chemical residues that come with traditional cleaning chemicals.

Our staff use PPE and pay particular attention to all high touch points after every stay including the outside door handles and key pads, remote controls and all light switches. We also have hand sanitizers upon entry at every door and our own Bramley hand sanitizer in your room. Please don't remove from your room but you are welcome to buy a pot from our kiosk in reception.

We are following government standards and information to make your stay and our staff as safe as possible.

If you wish anything to be removed from your room, please let us know.

We also ask if you become unwell during your stay or when you have left Brocco with any covid symptoms to please let us know via email on hello@brocco.co.uk so we may be able to manage the situation in line with our health and safety standards.
